STANDARDS AUSTRALIA

Investment Objective

The Board endorsed a revised Investment Objective for Standards Australia Limited’s (SA’s) Investment Amount in May 2006. The objective is:

“To grow the corpus in real terms over a seven year period, after providing for a minimum return of \((\text{CPI} + 1\%) + 4\%\) per annum (after fees, and measured over the seven-year period), with moderate volatility of returns.”

In order to achieve the above investment objective, the following Strategic Asset Allocation was endorsed by the Board in August 2012.

Property

Benchmark (Mercer Unlisted Prop pre tax)

Infrastructure (Since: September 2012)

Benchmark (CPI + 5%)

Growth Alternatives *

Benchmark (CPI + 5%)

Defensive Alternatives (Since: June 2006)

Benchmark (CPI + 3%) ^

Cash (excluding NAB cash)

Benchmark (UBS Bank Bills)

---

\(^{\text{A}}\) The Investment Objective was CPI + 4.5%p.a. until May 2006.

\(^{\text{B}}\) The Overseas Equities exposure in the benchmark portfolio is 100% hedged.

\(^{\text{&}}\) The Overseas Equities component of this benchmark is 50% hedged and 50% unhedged.

\(^{\text{+}}\) Franking credits performance is added at 30 June each year.

\(^{\text{NB:}}\) Performance includes franking credit refunds from previously held SAI Global shares.

\(^{\text{*}}\) Benchmark fully hedged until December 2009. Fully unhedged benchmark from January 2010 onwards.

\(^{\text{\&}}\) Includes Defensive Alternatives to May 2006. "Alternatives" was split into Growth and Defensive from June 2006.

\(^{\text{A}}\) Benchmark for Growth Alternatives was CPI + 6% and revised to CPI + 5% as of September 2012.

\(^{\text{B}}\) Benchmark for Defensive Alternatives was CPI + 5% and revised to CPI + 3% as of September 2012.

\(^{\text{NB:}}\) The performance stated in the above table includes an estimates quarter-end performance for GMO. The final market valuation for this product is typically released 5-6 weeks after the end of the quarter and will be reflected in the following quarter’s report. As such, the performance will be adjusted for the final valuation when it has been released.

---

\(^{1}\) Managed Funds means surplus funds over and above monies retained in bank accounts for working capital purposes, excluding investments in real property.
Investment Performance

The chart below shows the actual cumulative investment performance compared to the investment objective performance. The investment objective performance is CPI + 1% (the annual retention amount) plus 4%p.a.

^ Investment Objective was CPI + 4.5%p.a. to May 2006.
Portfolio Valuation

The following chart shows the actual value of the investment portfolio compared to the target value. The target value is the value of the initial funds at 30 June 2004 ($161.1M) increased by CPI + 1% p.a. from May 2006 (prior to this CPI + 0.5% p.a. was used).

\[ \text{Initial Value Accumulated} = \text{CPI + 1\% Objective} \times 1.1^{t} \]

\[ \text{Actual Total Portfolio} = \text{CPI + 0.5\% Objective} \times 1.05^{t} \]

NB: The above chart includes an estimate of franking credits accrued each month.
