

INVITATION

Indonesia—Australia Comprehensive Economic Partnership Agreement

Workshop: Standards for Enabling Trade

The Indonesia—Australia trade and investment relationship is expanding. Two-way trade was worth \$15.4 billion in 2015–16 and is well positioned to grow in future years. Indonesia and Australia are currently negotiating an ambitious and forward looking Indonesia-Australia Comprehensive Economic Partnership Agreement (IA-CEPA) designed to enhance bilateral trade.

When implemented, IA-CEPA aims to not only create a solid framework towards a modern and dynamic partnership that goes beyond the traditional scope of a free trade agreement, it will also enhance and deepen bilateral cooperation on trade, investment and business climate issues.

The National Standardization Agency of Indonesia (Badan Standardisasi Nasional – BSN) and Standards Australia have been working together on a Trade Enabling Standards Mapping Study to help inform IA-CEPA negotiations and stakeholders on the opportunities, issues and challenges for standards harmonisation, technical alignment and regulatory coherence.

BSN and Standards Australia invite you to contribute to a high level standards trade related discussion on the current and future market access opportunities and challenges for IA businesses. The interactive one day workshop aims to bring together a diverse group of key stakeholders including business government, regulators, bilateral business councils, trade and investment promotion agencies, and technical and professional associations, to share experiences/insights, exchange information and make recommendations that will help shape the Trade Enabling Standards Mapping Study.

Dates, Times and Locations

Sydney Wednesday, 18 October 2017
8.30 am – 3.30 pm
Level 9, 20 Bridge Street, Sydney, Australia

Jakarta Wednesday, 1 November 2017
